PRESS RELEASE

Kieback&Peter honored as a Best Managed Company 2026

BERLIN, May 22, 2026 – Kieback&Peter is among the Best Managed Companies Germany 2026. On Thursday evening, the Berlin-based pioneer in building automation received the Best Managed Companies Award at the Gesellschaftshaus Palmengarten in Frankfurt. The award recognizes excellently managed mid-sized companies in Germany and is presented by Deloitte Private, UBS, the Frankfurter Allgemeine Zeitung and the Federation of German Industries (German: Bundesverband der Deutschen Industrie (BDI)). Kieback&Peter impressed the jury with its clear strategic direction, a strong corporate culture, high innovative strength, and a sustainable and responsible approach to corporate governance.

The Best Managed Companies program is both a competition and a seal of quality for successful mid-sized businesses. Its vision is to build a national and global ecosystem of excellently managed mid-sized companies. A key differentiator of Best Managed Companies is its international scope. The program was launched by Deloitte in Canada in the 1990s and has since been successfully established in more than 45 countries.

“The Best Managed Company award confirms that we are on the right track with our long-term approach,” says Christoph Ritzkat, Managing Partner of Kieback&Peter. “We deliberately invest in sustainability, in our corporate culture, and in the future of our company. Receiving this award shortly before our 100th anniversary in 2027 is especially gratifying and motivates us to continue on this path.”

“Rarely has excellent corporate leadership been more important than in these challenging times. Best Managed Companies such as [Name of the Company] set benchmarks when it comes to agility and resilience: they respond quickly to today’s multiple changes and consistently view transformation as a mandate to shape the future. In an environment where what once seemed familiar is increasingly being called into question, these qualities deserve special recognition,” says Dr. Christine

Wolter, Partner at Deloitte and Lead Deloitte Private. “With the Best Managed Companies Award, we honor companies that lead the way, act with courage, and serve as outstanding role models for Germany’s Mittelstand.”

Founded in 1927, Kieback&Peter is now one of the leading providers of intelligent building automation. With its own hardware, software, and data-driven services, the company supports customers in the public sector, business, healthcare, and industry in operating buildings in an energy-efficient, safe, and sustainable way. Around 1,700 employees at 50 locations worldwide bring the vision “We digitize buildings for a better world” to life every day.

The award comes at a special moment in the company’s history. Kieback&Peter is currently preparing for its 100th anniversary in 2027. Winning the Best Managed Companies Award highlights the company’s long-term direction and marks an important milestone on the path toward its anniversary year.

The jury determined the winners through a multi-stage selection process. In addition to a detailed analysis of the application documents, the companies were assessed in intensive personal coaching sessions. The focus was on future viability, resilience, and the ability to achieve sustainable growth in a challenging market environment.
